NORM ARCHITECTS

## WORK IS FOUND IN BALANCE

### OUR STORY

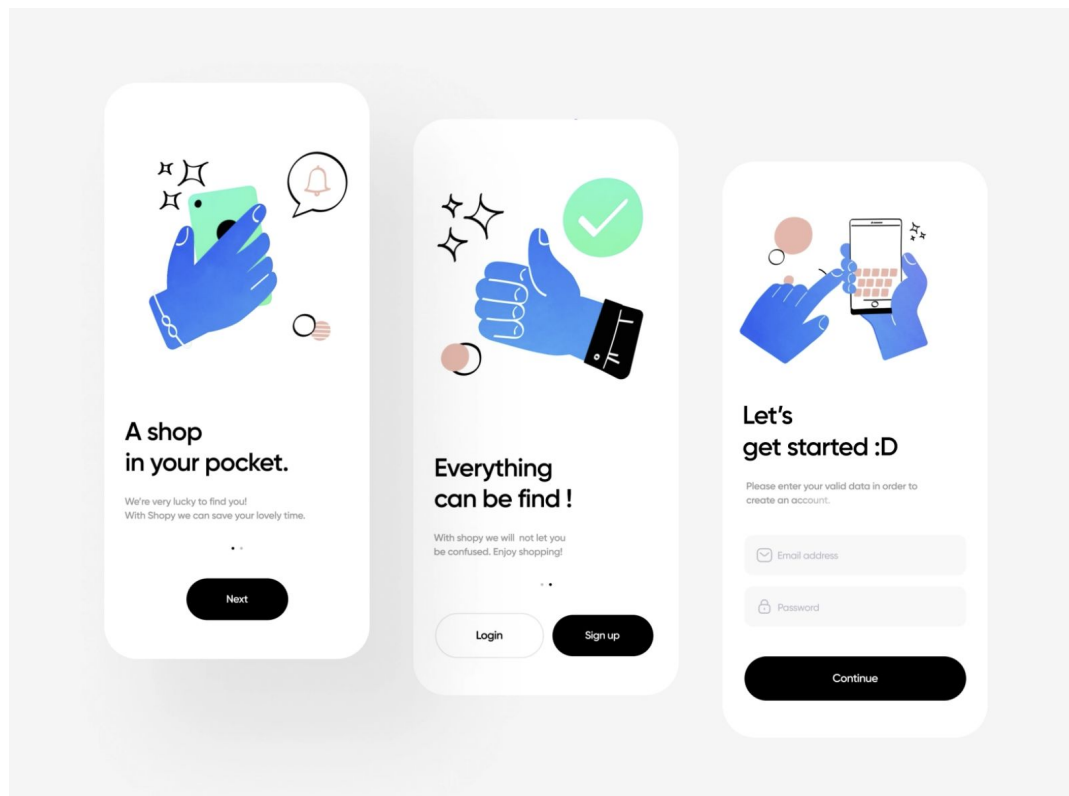

Norm Architects was founded in 2008. We work in the fields of industrial design, residential architecture, commercial interiors, photography and art direction

Much like human well-being, the essence of Norm Architects' work is found in balance-between richness and restraint, between order and complexity. Each project-whether architecture, interiors, design or creative direction-is imbued with the same intrinsic quality, a simplicity that carries bigger ideas. Guided by the body and mind rather than by trends or technology, our projects explore ideas that not only look good but that also feel good.
